## Project Type

Steel and plastic gas distribution pipeline

## Scope

Installation of 4,800 feet of 8" MDPE gas main with 8" steel crossings over steam tunnels

## Description

- Fabricated, excavated and installed 4,800 feet of 8" plastic MDPE gas main
- Fabricated and installed nine 8" inline valves and assemblies
- Installed approximately 500 feet of 8" steel over various steam tunnel crossings
- Tested entire pipeline as per DOE specifications
- Provided electronic as-built maps for the entire pipeline project to the customer
- Completed all live gas tie-ins to put pipeline into service
- Completed all permanent restoration, line stripping, and repair of traffic loops

## Project Results

Completed this project safely, ahead of the original schedule, under budget and with positive feedback from the customer.

## Project Completion

October 2014
