Project Type

Emergency storm response on Long Island, NY after Hurricane Sandy came ashore October 29, 2012

Scope

Mobilized 375 line workers and crew guides with tools and equipment to assist in rebuilding and repairing the distribution and transmission system in numerous communities throughout the Long Island Power Authority system.

Description

- Mobilized 175 local line workers from various New York customers
- Imported 50 line workers flown in from California operations and matched up with tools and equipment from Maryland operations
- Imported 50 line workers with tools and equipment from our Midwestern operations
- Imported 50 line workers with tools and equipment from our New England operations
- Provided 50 "cross trained" gas mechanics as crew guides to escort, provide meals, and be a point of contact for service center dispatch of 1,500 foreign contractor and utility employees

Project Results

Completed this project safely and efficiently with positive feedback from the customer

Project Completion

November 24, 2012
